Seasons In The City by Megan McKean

ISBN: 9780734420442 SCIS: 5373002

Do you know springtime in Tokyo is cherry blossom season? Or that on the longest day of summer in Stockholm the sun stays up for 18 hours? Seasons divide the year and bring about changes in the world around us. Different seasons bring warm or cool weather; snow or extreme heat; wet, windy weeks or dry, dusty days; and even big weather events like super storms and twisting tornadoes. Throughout history people have welcomed new seasons with important rituals. Plenty of these traditions continue today, as the change in weather brings different occasions to celebrate and activities to enjoy all year round in many of the world's cities. Discover what different seasons look like in cities all around the world.

A Trip To The Hospital by Freda Chiu

ISBN: 9781760526702 SCIS: 5372990

A children's book that explores all the amazing things that happen inside a children's hospital and gives thanks to the many hardworking people that help keep us safe and well. Going to hospital might seem scary or worrying - you might be hurt, you might feel sick or maybe you just have to visit a friend. But don't be worried! Hospitals are amazing places filled with clever people all doing incredible things, including making you feel better. Follow Momo, Rani and Henry on three very different adventures inside a busy children's hospital.

A picture book that shows children all the interesting things that happen inside a hospital, helping them feel safe and secure, and ready for their first visit.

Join Poppy the Mary River turtle on an adventure to find a new waterhole to call home. Plip! Plop! Parp!

Meet some of Australia's cutest and most vulnerable wildlife in the *Endangered Animal Tales* picture book series.

Aussie Stem Star: Alan Finkel by Kim Doherty

ISBN: 9781925893434 SCIS: 5373009

Aussie STEM Stars is an inspiring children's series that celebrates Australia's experts in Science, Technology, Engineering and Mathematics. As Australia's Chief Scientist, our country has turned to Alan Finkel for advice on everything from the climate, to AI, to the pandemic. But at a time when scientists have never been so important, Alan nearly didn't become one at all. Growing up in Melbourne as the son of immigrants who fled the Holocaust, Alan had to find the courage to make his own choices - even when they weren't quite what his family had in mind. Alan's story is one of being brave, loving your family and always aiming for excellence. Dr Finkel commenced as Australia's Chief Scientist on 25 January 2016. This followed an extensive science background as an entrepreneur, engineer, neuroscientist and educator, and an industrial career producing breakthrough scientific instruments for academic neurosciences and pharmaceutical drug discovery. He served as President of the Australian Academy of Technology and Engineering (ATSE), and for eight years as Chancellor of Monash University. He has been Chair of multiple companies dedicated to scientific research and was named the 2016 Victorian of the Year. Alan is committed to science education and has founded numerous magazines and education programs for schools and organisations. His career is defined by creative leadership, initiatives, philanthropy and innovative scientific publishing. He has been a strong and effective advocate for governmental and industrial support of innovation and research in science and engineering.
